Peek At Belize

Scenic and tropical paradise, Belize is an adventurer's paradise. Situated south of Mexico and east of Guatemala, it has unparalleled natural beauty, rich animal and plant life, unspoiled Caribbean coastline, lush rainforests, crystal clear tropical waters, coral reefs & amazingly friendly people.

Belize has a long fascinating human history. The Maya, who ruled the land up until the 12th Century, built an outstanding archaeological heritage and many of their cities & temples are only now being uncovered. Over the years, many have laid claim to this beautiful country. This fascinating cultural mosaic includes Mayans, Creoles, Garifuna, Latin Americans, Chinese, East Indians and Lebanese. All make distinct contributions to the Belizean way of life.

Belize's clear waters contain the second longest barrier reef in the world which has recently been designated a UNESCO World Heritage Site. Our trips give travelers ample opportunities to discover the wonders of the reef and come face to face with the Caribbean's most beautiful marine life. Belize is laced with dozens of small islands or "cayes". Some cayes, located on the southern half of the reef, are completely uninhabited.
